

ALETI+ ITC Sector Census - 2017 Edition - English

Opening

The 2017 Edition of the ALETI+ Census of the Information Technology and Communications Sector has the following objectives:

- updating information on the ICT Sector to obtain a detailed picture of the Sector, a necessary item for the formulation and monitoring of development strategies, including but not limited to public policies;**
- generate business opportunities and cooperation among participating companies, including business opportunities and research, development and innovation projects;**

In this year 2017, the initiative includes, in addition to the 19 member countries of ALETI, the possibility of participation for ICT companies located in any country.

Thanks in advance for completing the following questionnaire - the estimated total time is twenty minutes.

On behalf of all participating IT associations around the world,

THANK YOU SO MUCH!

Note: Codes displayed in brackets ([and]) should be ignored. These codes are only used to facilitate the processing of information simultaneously with questionnaires completed in other languages.
